WASHINGTON, June 9,-Senator Call offered a resolution, which was referred to the committee on foreign relations, requesting the President to institute negotiation with Spain for such modifications of treaties as will enable American cattle to be shipped from Florida and elsewhere in the United States to

Mr. Cockrell addressed the Senate. He said all the benefit that could be claimed for the proposed bill was that the Secretary of the Treasury would be compelled to purchase \$500,000 worth of silver every month more than he now had a right to purchase and the currency would be increased to that extent. He asked whether there was any valid reason for justiying and against the free and unlimited coinage of silver bullion in standard dollars and the issue of silver certificates for silver bullion. He was opposed to a discrimination, either for or against gold or silver. They should be put on a perfect equality as coin and bullion.

At the close of Cockrell's suggest, the and against the free and unlimited coin- tion, but the strikers swarmed around, At the close of Cockrell's speech the House silver bill was laid before the Senate. Mr. Teller moved that the bill be

printed and laid on the table. After brief argument it was so ordered.

Mr. Vest's bill was taken up and discussion of the provisions carried on between Mr. Vest in defense of them, and Messrs. Hoar and Hale in an attack upon them. The bill provided that no clearance be granted any vessel plying as a common carrier from the United States to foreign countries, the owners, agents or officers of which shall refuse to receive, in order they may be offered, said vessel having storage for the same, any cattle for transportation to a foreign countries, said cattle being in sound condition suitable for transportation and the shipper tendered a reasonable freight thereof, or who shall make any contract or agreement creating a monopoly to the capacity of said vessel for the carrying of cattle in violation of the law governing and regulating the duties and obligations of common carriers to the public, and providing unjust discrimination between shippers.

Mr. Reagan also defended the bill and

urged in favor of its passage.

Mr. Hale moved to amend the bill by inserting the words "not already con tracted in good faith by persons or parties having cattle for transportation at the date of such contract sufficient to

Mr. Vest opposed the amendment as one that would entirely neutralize the bill. Mr. Hoar said that were all the steerage capacity of a ship be contracted for, that ship ceased to be a common carrier and became a carrier simply.

Mr. Vest denied that statement, said if that were decided to be the law no harm could result from the passage of the bill. The whole steamship line was taken up by one shipper (Eastman), and it was done to control the English market and shut out all other cattle dealers in the United States. The result was the prices of cattle were put up and put down when this great monopoly chose, because it controlled the trans-

DESTRUCTIVE RAILROAD ACCIDENT IN MISSOURI.

Eight Bodies Taken From the Wreck A Number of Valuable Horses Also Killed.

Sr. Louis, June 9 .- A railroad wreck s reported from Warrentown, Mo., on the Wabash Railway. Two freight trains collided this morning. Both engines and eighteen cars were wrecked. Out of the eight palace horse cars, loaded with race horses en route for Kansas City, two were wrecked, and seven men in charge are reported killed. Fifteen horses were killed and a number of trainmen injured.

The horses were en route from Latonia to Kansas City to take part in the races there. The killed are:

WM. H. THOMAS, Cynthiana, Ky. HENRY STONE, trainer, Harrodsburg. JAMES and FRANK KELLY, Chicago. ED SIMONS, hostler, Lexington. Morris Green, colored, Frankfort. SAMUEL DAVIS, jockey, Lexington.

Five were injured. The scene at the wreck was terrible. The cars and engines were intermingled in one huge mass of debris from unde which came screams of the wounded and dving-some cursing and begging to be killed while others were praying for help.

One negro boy was scalded and literally cooked alive and one colored jockey buried under shelled corn which position it took several men three hours to extricate him. A force of men worked from two a. m. until seven this evening rescuing the unfortunates and had it not been for a steady rain the loss of life would have been much greater as the wreckage would have

System of Feudal Landlordism Not Wanted in this Country-Full Text of the Measure.

By the Associated Press:

Washington, June 9 .- Representative Oates, from the Committee on Judiciary, today reported to the House a bill to prohibit aliens from acquiring title to or An elaborate report accompanied the

was any valid reason for justiying a continuance of the existing discrimination in favor of free and unlimited coinage of gold and the issue of gold certificates for gold bullion cars were run out under police protections. Two cars were run out under police protections own in the aggregate about 21,000,000 cars were run out under police protections. acres of land within the United States. We have not sufficient information to aliens nor is it so important as it is generally held in smaller bodies. This alien non-resident ownership will in course of time lead to a system of landlordism incompatable with the best interests and free institu-tions of the United States. The founda-tion of such a system is being laid broadly in the Western States and Terbroadly in the Western States and Territories. The avarice and enterprise of European capitalists," the report continues, "have caused them to invest many millions in American raifroad and land bonds covering perhaps 100,000,000 acres a greater part of which under fore-closure sales will most likely, before many years, become the property of these foreign bondholders in addition to their pesent princely posessions.

their pesent princely posessions.

"This aggressive foreign capital is not confined to the lands it has purchased, but overleaping its boundaries has caused hundreds of miles of public domain to be fenced up for the grazing of vast herds of cattle and set at defiance the rights of honest but humble

under disabilities of the civil law as to future attempts to acquire lands in this country. In other words the report says the bill is a declaration against absentee landlordism. It declares

all foreign born persons who have not been naturalized, incapable of taking a title to lands anywhere within the United States, except a lease held for not exceeding five years. It has no retractive, but prospective operation. It also contains a provision which will compel alien land owners to cease to be such or to become citizens of the United States within ten years.

"The bill," the report says, "would prevent any more abuses like that of Amer Schully, who resides in England, and is a subject of the Queen, but who owns 90,000 acres in Illinois, occupied by tenants, mostly ignorant foreigners from whom he receives as rent \$200,000 yearly and expends it in Europe. The Schully estate owns about 2000 acres within the city limits of Pittsburg and Allegheny, from the rents of which the Schullys, who are subjects of the British queen draw annually not less than \$100,000, is another instance of alien landlordism in America. The tenth census shows that the United had 570,000 tenant farmers, the largest number possessed by any nation in the world.

In conclusion the report says:
"With the natural increase in
people and foreigners who flock to
our shores annually and by competition
are reducing the wages of labor making a battle for our people is a problem for American statesmen to solve. Multipli-cation of the owners of the soil is a corresponding enlargement of the number of patriots and every land owner in this country should owe allegiance to the United States.'
